Key facts on AEE & AEC

Welcome to **AEE & AEC 2020**

AEE is one of the world's leading trade fairs fully-dedicated to aerospace R&D, design, test, inspection, production & assembly. Meet with visiting OEMs and top tier manufacturers walking the floor to source from all levels of the engineering supply chain.

AEC – the Aerospace Engineering Conference will bring together leading manufacturers and suppliers in the aerospace industry to present updates and developments in design and materials in manufacturing, operations in manufacturing, capabilities and processes, innovation within manufacturing, modern machining technologies, and industry automation.

The trade exhibition along with the high-profile conference will provide a platform to connect technology, business and industry people and thereby it is the most effective way for the aerospace engineering to create new ideas and business opportunities.

One-stop Solution!
**Meet the key
aerospace players
in one place.**

1 Exhibition

6 Conferences

100 Companies

5,000 sqm

10,000 Participates

∞ Opportunities

Exhibition

One-stop Solution!

The global aerospace engineering in one place

AEE shows the entire aerospace supply chain from design, engineering, testing, simulation, assembly, materials, manufacturing, 3D Printing, Industry 4.0, digitalisation, tools, components and systems, electronics, avionics,

sensors up to lifecycle support. Present your ideas, capabilities, innovations and know-how and support OEMs and system suppliers including the great technological and economical solutions you provide.

Design Engineering Testing Simulation	Materials Manufacturing 3D Printing Tools Assembly Industry 4.0 Digitalisation	Components Systems	Lifecycle Support MRO

Conferences

Solutions. Trends.

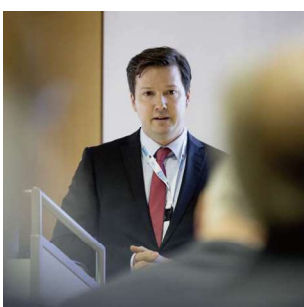

Setting the trends in future oriented topics and technologies

AEC creates a tight linkage between industry and science and puts together technical specialists discussing on core competences and hot topics.

Proximity to the exhibition area ensures that top experts have best opportunities to exchange, network and establish new contacts.

Business Opportunities

Business. Efficiency.

All the right partners to accelerate your business

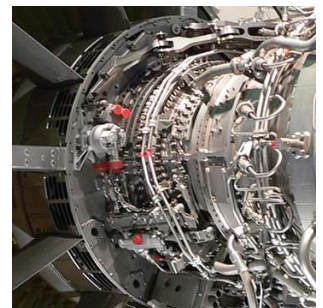

Get in touch with key executives, buyers, sourcing, supply chain managers and technology experts from around the world, start negotiating with

potential partners to exchange ideas, discuss opportunities, build-up new partnerships and do business.

Before AEE Pre-arrange B2B meetings in advance		At AEE One-on-one business talks

Who you will meet:

- >> Engineers, management and procurement/supply chain professionals involved in Aero engineering design, development, test, production, assembly, inspection and more... from:
- >> OEM' s / Airframe Manufacturers - China, Asia & International
- >> TIER 1 Suppliers of aerostructures, engines, actuation & flight systems, interiors, avionics, power systems, & landing gear
- >> TIER 2 Approved & Accredited Supply Groups - of parts, structures, components, sub-assemblies, sub-systems & engineering services feeding into the supply chain
- >> Design, Development & Manufacturing partners
- >> Engineering Businesses wishing to break into the aerospace supply chain

Who will exhibit:

- >> Specialist industry 'Tier' parts & components & sub-systems suppliers - covering: Aerostructures, Powerplant & Aero Systems sectors & Multi Area components/parts engineering consumables
- >> Aero-engineering sub-contract & engineering service providers - includes: engineering design/development services; materials processing services; testing, evaluation & inspection services; raw materials suppliers; jigs & tooling suppliers; standard parts suppliers; electronics contract manufacturers
- >> Materials providers
- >> Technology & Equipment providers - supporting design, test, production, manufacturing, assembly & systems engineering
- >> Innovation providers & support organizations - across the Aerospace sector
- >> Industry Technology transfer /representative bodies & consultants

Integrated Marketing Solution Make Your Business Happen

Join us NOW

- >> Maximize your brand exposure before, during and after the tradeshow.
- >> Exhibition Promotion Packages
- >> Multi-media channels to promote your brand and generate qualified leads. Benefit from a full package of visibility and networking opportunities.

Conference Sponsor

- >> Become the official sponsor of one or several conferences and take the unique opportunity to highlight your technology and products towards a dedicated audience of professionals, and potential future clients.

Networking Sponsor

- >> Sponsor parties organized for the exhibitors' community in a prestigious venue in a relaxed ambiance.

Free Marketing Opportunities for All Exhibitors

Free News Release
News Release via the Official Website

VIP Invitation Service
Nominate your VIP to visit your booth.
All VIPs could enjoy special service

Digital Visitor Invitations
Send the email invitation via the exhibitor system

Exhibitor Systems – Help you exhibit more smoothly
Online Show – Promote your brand and products via official website
e-Sticker (for website, emails, print, social media and etc.)

See you in
